

# BRADLEY BROS.'

## TENTH

# ANNIVERSARY SALE!

IN closing out this season's stock of dry goods, we terminate ten successful years in the handling of fashionable and staple dry goods, and the success we have met with we attribute to our continuous efforts to close out each season's purchases at any price, regardless of their cost.

## The Christian Camp-Meeting

At Oakland Park begins Sunday evening at 8 o'clock with a grand song service led by Prof. Alex. C. Hopkins, of Missouri, and a sermon by Rev. Hall on "What We Believe." Chaplain Lucas will arrive from Chicago Monday, and speak every night for two weeks. Free admission at every service except the two Thursday night lectures, when an admission fee of 10c will be charged at the gate. Dr. Lucas is an old army chaplain, and his first lecture will be on "The Real Funny Sides of the War." Every Grand Army man in Macon county ought to hear it, and bring all their friends. A change has been made in song leaders on account of the serious illness of Prof. Hutto at his Kansas home. A higher-priced man has been secured in his place, however, Prof. Hopkins, who will be at the morning services at the Tabernacle to-morrow, and will meet the singers at the same place at 3 o'clock for drill. He is conductor of wide note, and a beautiful singer as well. He has composed some of the best music of the day, and is an organist, soloist, and all-around musician. Everybody should carry a copy of "Gospel Hymns," No. 1, 2, 3, 4, as this will be the book used during the meetings. Old songs will be selected so everybody can sing. Not only singers of the Christian church, but of every church and no church, are invited to be at the rehearsal to-morrow afternoon at the tabernacle. The professor is a master in his art, and a two week drill under his leadership free of charge is an opportunity that all who wish to become good singers should accept quickly. The meetings promise to be very successful, and no doubt a large crowd will be present at the opening service to-morrow night. The committee would be pleased to receive a few more bids on the privileges of the grounds. Those interested will see A. F. Ross, chairman.

July 1st.

## Oats Too Short to Cut.

E. J. Crawford, a farmer near Forsyth, was in the city to day and he reports that in his neighborhood chinch bugs are doing considerable damage to corn, and have been very destructive to wheat and oats. He says he has just finished threshing eighteen acres of wheat and got 97½ bushels. A neighbor from the same acreage got only 30 bushels. Hundreds of acres of oats are too short to cut.

### HOW DO YOU DO

About it when you need some Furniture, a Stove or a Carpet, and haven't the cash to pay? Do you go without them until you have saved up the necessary money? If you DO you are cheating yourself out of a lot of comfort and you are not gaining a penny by the operation.

### WE SELL ON CREDIT

Not Furniture, Stoves and Carpets alone, but Mattings, Refrigerators, Baby Carriages, and everything else known to housekeeping. We ask you to compare our prices with those of the cash stores. There's only one price mark here, it's in plain figures, and it's cash or credit. No notes, no interest, small weekly or monthly payments.

## DUN'S TRADE REVIEW

Statistics of Failures, Past and Present.

### INTERESTING FACTS FOR TRADESMEN.

Distinctly Better Crop Prospects Indicated—Advance in Iron Continues, with Wool Stronger and Cotton Goods Still Advancing.

NEW YORK July 6.—R. G. Dun & Co. in their weekly review of trade, issued to-day, say:

There were 6,057 commercial failures in the first half of 1895, against 7,033 in the first half of 1894, and 6,401 in the first half of 1893. These commercial failures involved liabilities of \$88,832,944 this year, against \$101,730,706 last year, and \$108,864,444 in 1893. Comparisons by quarters for twenty years show that the average of liabilities per failure, \$14,270 for the past quarter against an average of \$12,343 for the second quarter in previous prosperous years, was \$34.38 for every firm in business against \$27.53 for the second quarter of previous prosperous years and that the ratio of defaults to payments through clearinghouses was \$3.04 per \$1,000 against \$2.34 for the second quarter of previous prosperous years. In times of disaster, \$87.11 per quarter has been the average of defaulted liabilities per firm in business, and \$7.36 per \$1,000 solvent payments.

Manufacturing failures for the half year were 1,234 against 1,501 last year, and liabilities \$40,301,949 against \$41,376,103 last year and about \$89,000,000 in the first half of 1894.

Trading failures for the half year were 5,315, against 5,402 last year and liabilities \$45,669,840 against \$52,347,978 last year, and about \$61,000,000 in 1892.

Manufacturing failures were 50 of 1 per cent. of all manufacturing concerns, against 42 last year, with liabilities averaging \$132 for every firm, against \$117 last year.

Trading failures were 64 of 1 per cent. of all firms in business, against 64 last year, with liabilities averaging only \$34 for every such concern in business, against \$62 last year.

Banking failures, not included in above statements, were 63, with liabilities of \$10,653,276, against 63 last year, with liabilities of 13,084,461.

The details show a decrease in every class of failures in the second, compared with the first quarter of 1895, both in number and magnitude, the defaulting liabilities averaging \$14 against \$40 for every firm in business, and \$3.04 against \$4.03 for every \$1,000 solvent payments.

The midsummer reports from all commercial centers, to which more space is given than usual, are of especial interest, covering the questions on which the future business depends. They indicate distinctly better crop prospects than other official or commercial accounts, a marked increase in retail distribution of products, an active demand for goods, and a general enlargement of the working force, with some advance in the wages of more than half a million hands. At the same time they show that the rapid advance in prices has somewhat checked buying of a few classes of products in every part of the country, and the outlook for fall trade is considered bright.

Nothing disturbs the money market. The government begins the new fiscal year with more than the required gold reserve, and the disbursement of nearly \$80,000,000 by corporations in interest and dividends will stimulate business in many branches.

The latest agreement of railroad presidents is treated at Chicago as meaning more than usual and shipments have increased, amounting for four weeks to 203,877 tons east-bound against 187,300 last year and 208,113 in 1893.

Earnings of railroads in June, thus far reported, amount to \$23,080,870 in the United States and are 6.8 per cent. larger than last year, but 15.7 per cent. less than in 1893.

The advance in iron continues, and the Thomas company has raised anthracite No. 1 another \$1 per ton. Comparison of prices for various iron products shows an average ranging from 72.2 per cent. since February for wire nails to 7.1 per cent. for anthracite pig iron in all kinds averaging 22 per cent. The demand and rise have come so suddenly that, even while the first order for shipments of steel billets to Europe, given some time ago, when prices were low, is being announced, the prices here have advanced from \$17 in April to \$21.25, or about 31 per cent.

Wool is stronger both here and abroad. The London sales opening July 2 at higher prices, and the average for 104 qualities of domestic wool, quoted by Coat & Bros., has risen nearly half a cent since June 20. Sales have been enormous, though largely speculative, but exceeding those of May and June in any previous year, being 26,897,613 domestic, and 27,457,100 foreign, against 24,332,400 domestic and 19,675,150 foreign in 1893. There is a growing re-order demand for heavy-weight woolens, and many new kinds of light-weight have been opened with notable irregularity in prices, some lower than others higher than last year. But the manufacturer is better sustained.

Ch. far than was expected, and the Ladies' is very hopeful, especially as church troubles have substantially church basins.

## INDIGNANT WILSON.

The Escape of the Springfield Post Office Robbers

## FROM THE LUDLOW-STREET PRISON

Charged to Carelessness or Criminality on the Part of Corrupt Officials—Big Rewards Offered for Their Recapture.

WASHINGTON, July 6.—Postmaster-General Wilson yesterday addressed the following indignant letter to the United States district attorney at New York in regard to the escape of the Springfield post office burglars:

"HON. WALLACE MCFAHAN—Dear Sir: This department is in receipt of your telegram of to-day advising the offer of a reward for the capture of the post office burglars, Kiloren, Allen and Russell.

The six states will have about half of last year's crop Michigan and Missouri promise the best, or about two-thirds. Ohio will have a trifle over half a crop; Indiana and Illinois a trifle less than half and Kansas the worst.

There has been a small decline in the condition during the past month. One thousand four hundred and twenty-three reports say it is about the same; 1,009, a trifle better, 999 a trifle worse and 534 much worse. Missouri shows a slight improvement.

The quality will be inferior to the last crop. It promises to be irregular. Thirteen hundred and ninety say it will be mostly No. 2 red; 1,015 say mostly No. 3 red; 390 about half No. 3 and No. 3, 322 say No. 4 red, and 106 rejected or worse. Illinois will have the poorest.

Eleven hundred and thirty-seven say new wheat will begin to move freely during the first week of July; 1,911 during the second week; 504 in the third week, 394 the last of July, and 529 in August or later.

Nine hundred and fifty-two say farmers will sell freely soon after harvest, 263 say many will be compelled to sell; 721 say about half will sell freely; 1,614 say a large majority will hold. Many say there will be no surplus over their local wants. Some say they will sell their poor wheat first.

Clover seed promised poorly. Recent rains have improved it some but a large major say it is too early to tell what the crop will be.

### FOR ALLEGED FRAUD

Several Parties are Denied the Use of the United States Mails.

WASHINGTON, July 9.—The use of the United States mails, because of alleged fraudulent intent, has been prohibited to the Nebraska Manufacturing Co., of St. Joseph, Mo., for employing lottery methods in the promotion of its business.

Also to J. C. Battorf, of Grand Rapids, Mich., who advertised that he could for one dollar cure diseases, upon the receipt of a lock of hair. A postal inspector sent him several locks of his own hair, stating he was a female. His case was diagnosed as such by Dr. Battorf, who was then arrested.

A fraud order was also issued against Charles Allen, alias T. Radway, alias D. Price, a green goods man, operating in New York and West Virginia.

### CONGRESSMAN BRYAN

Speaks Under the Auspices of the Kentucky Chautauqua, on the Silver Question.

LILINGTON, Ky., July 6.—Congressman W. J. Bryan, of Nebraska, spoke here last night under the auspices of the Kentucky Chautauqua assembly. Superintendent Davidson, introducing Mr. Bryan, said the Chautauqua platform was a broad one and that both sides of all great questions could be discussed upon it. The speaker of the hour, he said, would speak in favor of the silver standard, that he had written Secretary Carlisle to speak on the currency question but that the secretary had refused, saying he could not lecture on such a subject when an administration for was charged.

Committed for Trial on a Charge of Kidnapping.

LONDON, July 6.—Ernest Crane, Henry Crane and James Hook were yesterday fully committed for trial on the charge of having kidnapped Mrs. Gordon, wife of the late Hon. Sackville Gordon, a few weeks ago. The abduction of the woman, it is claimed, was done at the instance of an American named Clamp, with whom Mrs. Gordon had lived, in order to obtain the money, jewelry, etc., which she was possessed of.

Murdered His Wife and Children and Died with Them.

CHICAGO, July 5.—Frederick Hellman, a contractor, last night murdered his wife and children by asphyxiation, and died with them. The place of the tragedy was at the Hellman cottage, 601 Cornellia street. The house is small, but it was their own, and the Hellman family was supposed to be living happily together.

Going to Look After the Senatorial Fences.

WASHINGTON, July 6.—Gov. Sims, first assistant secretary of the interior department, left Washington Thursday night for a three weeks' vacation at his home, Columbus, Miss. While away Gov. Sims will take a survey of the political field in Mississippi, especially in regard to the selection of a successor to Senator George, who voluntarily retires at the end of his present term.

Cincinnati Tribune.

The draft riot in New York began  
on the second day of the conscription,  
Monday, July 13, 1862. Gen. John E.  
Wool, U. S. A., commanding the de-  
partment of the east, had his head-  
quarters in the city; under him were  
Brig.-Gen. Harvey Brown, colonel of  
the Fifth artillery, U. S. A., and Maj.-  
Gen. Sanford, N. G. S., N. Y. The riot  
lasted all of Monday, Tuesday and  
Wednesday, July 13, 14 and 15; the police,  
some ex-soldiers and a very few  
regulars and marines made the only  
organized opposition to the mob. The  
militia regiments were at the Gettys-  
burg campaign; they began to return  
on Wednesday and Thursday.

**A Crowning Success.**  
C. E. DeVos, editor of the Coopersville  
(Mich.) Observer, is a worthy example of  
what push and energy, with keen busi-  
ness propensities, will accomplish. In a  
conversation with your correspondent  
Mr. DeVos said: "I was born in Keene  
Canada, in 1855. In 1857 I migrated  
with my parents to Peoria, Iowa, received  
a common school education, drifted into  
the printing business, and removed to  
Battle Creek, Mich., where I became  
foreman in the large printing house of  
Gage & Son. I recently purchased the  
paper, of which I am now editor. My  
life work has been very confining and  
exacting, and as a result, my health gave  
out and I broke down with nervous ex-  
haustion and sleeplessness. I was in  
such a condition that I could not sleep  
until completely worn out, my appetite  
failed me and I had to choke down what  
little I did eat. About two months ago  
my attorney was directed to Dr. Wheel-  
er's Nerve Vitalizer, and I concluded to  
try it. It had a wonderful effect on me;  
in a few nights I was able to get all the  
sleep needed, and my appetite returned  
and became as ravenous as a wolf's, my  
weight increased twelve pounds, my  
mind became clear and active; in fact, I  
was restored to health and look and feel  
like an entirely different man." Inquiry  
and observation has proved Dr. Wheeler's  
Nerve Vitalizer to be a truly won-  
derful cure for all nervous troubles, such  
as nervous prostration, spasms, fits, mental  
depression, exhausted vitality, de-  
pendency and sexual general debility.  
Anybody that can keep a promise  
can have the full benefit of our  
credit-giving.

### PRIVATE WATER METERS.

**Figures on the Cost and Saving to Consumers—The Revenue.**

The reports about the great volume of kicking about water rates magnify the facts. While it is true there has been some kicking it has not amounted to near as much as was expected. There is one thing, however, that the agitation of the water question has produced, that is a pretty thorough investigation of water meters. A number of agents for various meters have been and some are still in the city exhibiting their machines. Everybody is agreed that the water meter that will register correctly would be entirely fair to both the water taker and the city. For a factory or any concern using a large amount of water there should be a meter in all cases as no fair estimate can be made in these cases.

The water meter would work a great revolution in Decatur. The superintendent of the water works reported that in June 90,000,000 gallons of water had been pumped up into the city.

With meters all over the city measuring that amount of water at the rate of 9 cents per 1000 gallons that amount of water would bring into the city treasury \$8,100 a month or \$97,200 a year.

The amount of money collected by the city from water takers last year amounted to only \$25,233.18. But the estimate of 90,000,000 gallons a month is too large and to make a reasonable estimate it would be nearer correct to assume that 50,000,000 gallons are used each month. At 9 cents per 1000 gallons this would yield \$4500 revenue to the city per month or \$54,000 a year as against \$25,233.50, the amount collected last year, or over twice as much. This estimate, of course, does not take into consideration the amount of water used by the city at fires and for flushing sewers, etc., which does not amount to a great deal.

But it is a fair presumption that under the present system there are millions of gallons of water wasted by water takers every month.

If the water was measured to the taker by meter this waste would at once disappear, and the amount of water used would be materially diminished. People would at once become as careful about the waste of water as they are about the waste of gas.

It would at once reduce the amount of water consumed at least 25 per cent, and the city could very materially reduce the rate per thousand gallons, have more money at the end of the year and at the same time reduce the expenses at the water works.

Looking at this question from any point of view, a system of meters would be better for the city and better for the honest water-taker. The extravagant and dishonest water-taker is the person who always causes trouble, and he is the individual who would be brought to time by the silent and unerring count of the water meter.

### ACCIDENTS.

The 10 year old son of H. M. Myers, at 1560 North Calhoun street, fell yesterday and broke his left arm at the elbow joint. Dr. J. B. Brown attended him.

Dr. Brown was also called to treat the eye of Ada Vining, daughter of Frank Vining, on St. Louis avenue. She had lighted a fire cracker. It did not burn fast and the little girl blew the fuse, the cracker exploding in her hand, injuring one of her eyes very seriously. The sight may be lost.

Cornelius Morris on East William street, yesterday, accidentally fell off a step ladder and was hurt so badly that he required the attention of Dr. Catto. The shock was quite serious.
